Bachelor of Engineering (B.E), Information Technology

D. Y. Patil College Of Engineering

2022 - 2026

SKILLS

Technical Skills: HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, MongoDB, Node.js, ReactJS, MERN Stack, Data Structures

Soft Skills: Communication, Team Collaboration, Problem-solving, Time Management

EXPERIENCE

Project Experience

QUILL.AI

Mar 2024 - May 2024

- Developed a chatbot-based website to summarize large texts efficiently.
- Designed and implemented the frontend using HTML, CSS, and JavaScript, ensuring a seamless and intuitive user experience.
- Integrated the frontend with backend services to enable dynamic data fetching and real-time updates.

WANDERLUST

Nov 2023 - Dec 2023

- Built a travel website inspired by Airbnb, allowing users to discover and book accommodations worldwide.
- Developed features for users to add listings with prices, locations, and images using MongoDB, Express.js, ReactJS, and Node.js.
- Implemented user reviews and comments, enhancing user engagement and interaction.

Netflix Clone

Sep 2023 - Sep 2023

- Designed a simplified Netflix clone to demonstrate UI design and web development skills.
- Created a user-friendly interface inspired by Netflix's layout and design principles using HTML and CSS.
- Focused on responsive design and usability to provide a consistent experience across different devices.
